Gentlemen:

Through Mr. L. W. Hoffecker, who recently visited your city, I learned of a privately printed publication of the coins of Brazil. Can you inform me where it was published, by whom, and whether you have a copy for sale or know where one could be procured? We are especially anxious to have such a valuable work in our Numismatic library, and I trust I may rely on your good offices to aid us in obtaining one of these treatises.

Very truly yours,

Librarian & Secretary
